

# CIM: ACCESSING STANDARDIZED ASSESSMENT RESULTS

## Quick Start Guide

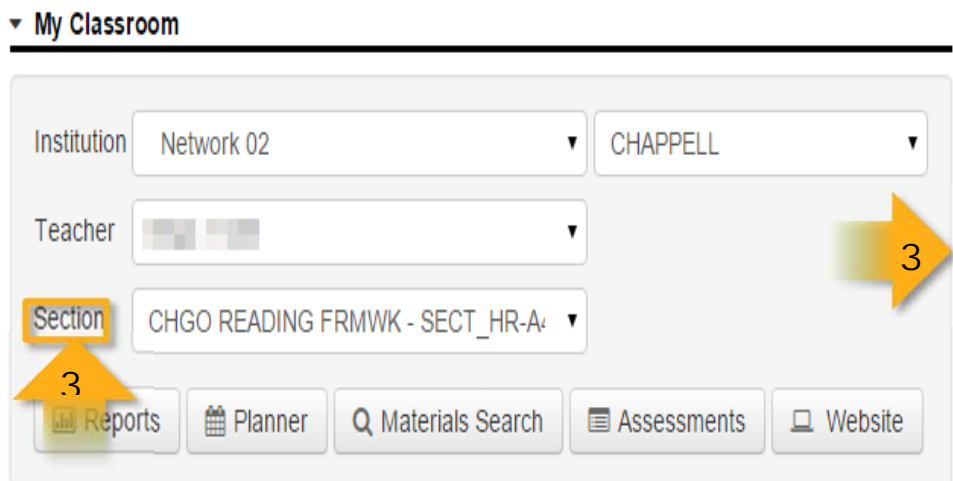

This Quick Start Guide will help you access Standardized Test Results for groups of students.

### Access Scheduled Result

- From the  page, scroll down to **My Classroom**.

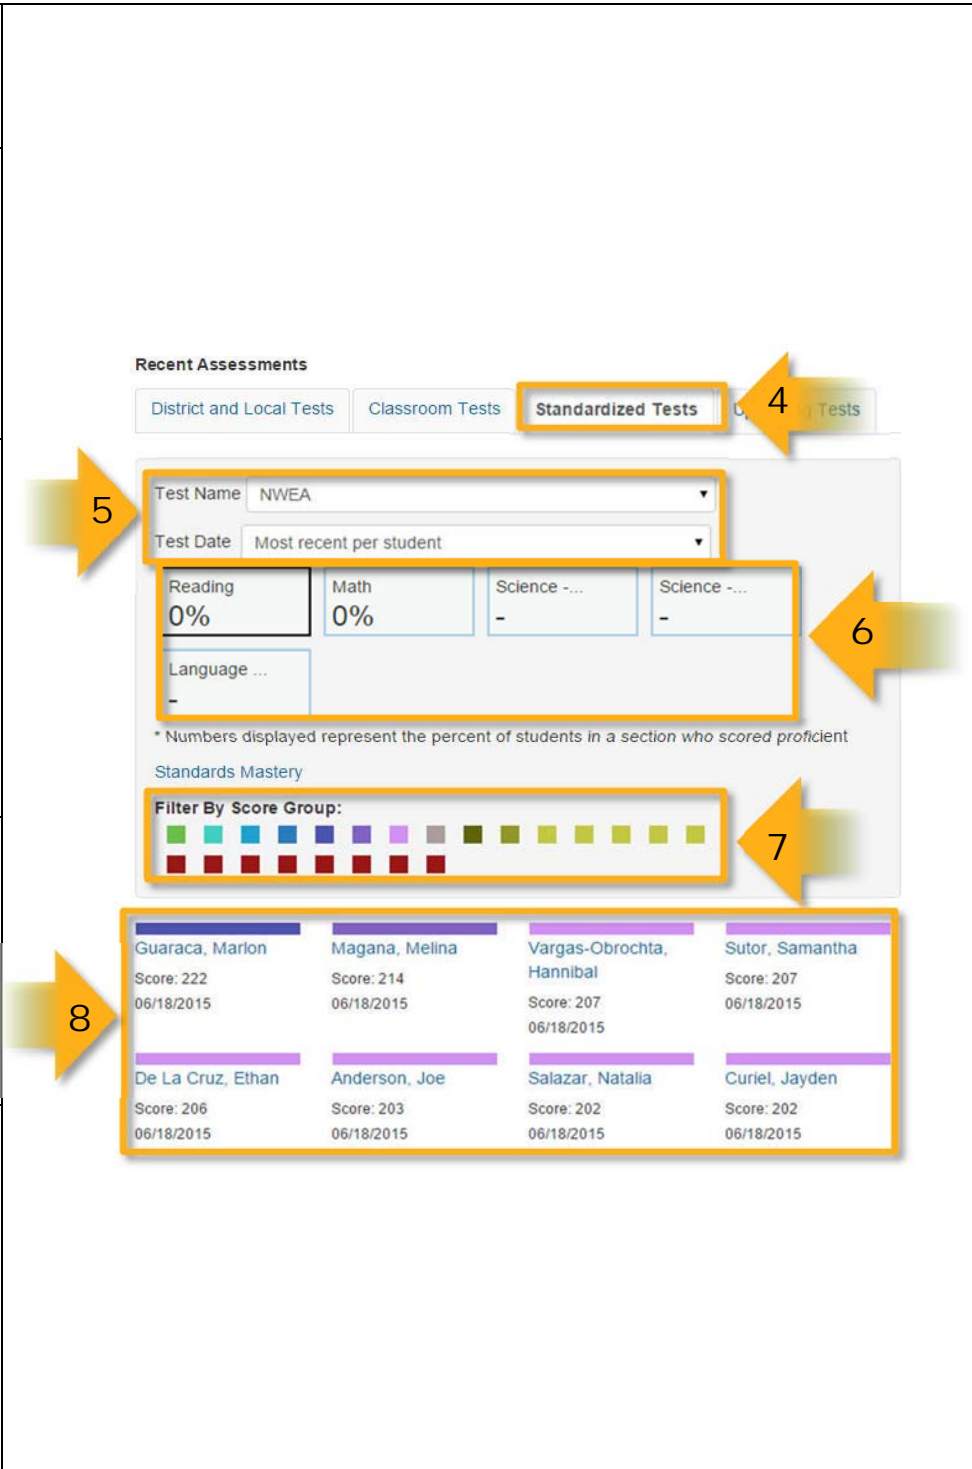

- Select the desired class from the **Section** dropdown.

- Scroll down to the **Recent Assessments** section.

4. Click the **Standardized Tests** tab.
5. Click the **Test Name** drop-down to view details on another Standardized Test or change the **Test Date** for the selected test.
6. CIM displays the percentage of students in the selected class that are proficient in each part of the selected Standardized Test.
7. Click on each color square underneath **Filter By Score Group** to displays results by score group.
8. View each student's Standardized Test score or access a student's profile by clicking on a student's name.

**Recent Assessments**

District and Local Tests | Classroom Tests | **Standardized Tests** | Tests

Test Name: NWEA  
Test Date: Most recent per student

Reading 0%	Math 0%	Science - ... -	Science - ... -

Results for Standardized Assessments from prior school years are accessible to users from the **School & District Data** page.

### Create a Report

1. Hover over **School & District Data**.

2. Click on **Report Builder**.

3. Click on **Standardized Test Performance** to start the report builder.

### Report Builder

#### Build a Pre-Formatted Report

Click a report link to run one of the below reports.

#### Formative (Benchmark and Interim) Reports

- ▶ Benchmark Performance by Subject
- ▶ Benchmark Test Item Analysis
- ▶ Benchmark Test - Standards Analysis by Section
- ▶ Benchmark Test - Score Group Analysis
- ▶ Benchmark Test - Standards Analysis by School Enrollment

#### Standardized Test Reports

- ▶ Standardized Test Performance

#### Demographic Reports

- ▶ Demographic Overview

#### Build a Custom Report

Create your own report by selecting student report criteria.

- ▶ Start by building a Student Set
- ▶ Build a custom report with all students

#### Course / Section Lists

Find courses and sections and run reports on the students enrolled in them.

#### Define Student Set

Create Student Sets to use in Custom Reports, combine with Saved Report, or for use batch printing Student Profiles.

4. Select the desired filters for the report. Only the **Test Name** field is required.

Field	Input
Region	CPS Network
School type	Elementary or High School
School	School Name
Grade Level	Specific grade level
Select Test Information	
Test Year	School Year
Test Name	Standardized Test Administration
Test Level	Grade Level of Retest
Test Instance	Window Start Date and Grade Level
Subject/Section	Subject section (e.g. Math) within a test
Student Enrollment	
Current Enrollment	Include all currently enrolled students
Total Enrollment	Include all students ever enrolled during the selected School Year
Range	Include all students enrolled during a specified start and end date (to select just one day, use the same start and end date)
Display options	
Chart Style	Display report data in a table or a graph format.
Field	Input
Paging	Divide report into multiple views (i.e., Region, Student Enrollment School, or Student Enrollment Grade level). Select the check box to activate this option.

5. Click **Run Report**. The report results display.

6. Other viewing options include:
- In the Graph view, click a section of the bar graph to display the percentage.
  - In the Table or Graph view, click a value in a table or graph to display the relevant students in an Analysis Spreadsheet.

### Pre-Formatted Reports

7. Click **Save Report** from the top of the screen to save your pre-formatted report.

8. **Saved Reports** can be located under School & District Data.

**Note:** Additional reports concerning Standardized Assessment Results may be created by School; Network; and /or Central staff and published to the Home page in the **Report Bank**. Should that occur, notification will be sent out to users by the report creator.
