

# Behavior Analytics Quick Guide

## Behavior Analytics, School Tab

Verify Behavior Analytics has been enhanced to include five new Operational Data Views for a quick visual reference of a school's disciplinary environment. Parameters for the views are customizable by day, week, or month timeframes. Each color coded icon can be drilled down to a bar chart or data extract view. Additional grids displaying the SCC Violation detail are broken out by level 1 – 3 violations and level 4 – 6 violations for the selected date parameter. Behavior Analytics can be found by clicking on **Incident Management** on the top menu bar and then by selecting **Behavior Analytics** from the drop-down menu.

## Selecting a Date Range

1. Click on a date range to change the data displayed. Default is **Today**. In the example below **This Week** is selected.
2. Select the group of Students to view. Default is **Active Students**. Inactive students are students who are no longer enrolled in your school.

## Navigating to Behavior Analytics, Student Tab

1. Click on the **Student** tab.
2. Use the Search tool at the top of the page to bring in a student.

The screenshot shows the Verify.NET interface. At the top, there are navigation tabs: Student, School, Network, and District. The 'Student' tab is selected. Below the tabs, there is a search window with fields for Last Name, First Name, Student ID, and School. The search results show 0 results. Below the search window, there is a 'Student Information' section with fields for Incident ID, Offender Name, Risk Level, Homeless, Info. Code, Speed, Date Time, Suspension Type, Network, Type of Action, No. Of Days, and Factors. Below this, there is an 'Interventions' section with an 'Expand' button. At the bottom, there is an 'SCC Violations' section with a table header and a 'No records to display' message.

## Navigating to the Event Detail Report

1. Click on an Event ID in one of the grids.
