Introduction

This user guide is geared towards Elementary School staff with the Attendance Coordinator role in SIM. It covers the basics of how to:

- Maintain Attendance
 - By Homeroom
 - By Student
 - For Multiple Students/Days
- Print Homeroom Roster Report (to take manual attendance)
- Generate Attendance Reports

SIM Basics: Navigating and Performing Student Searches

For users new to using SIM, the Introduction to SIM quick guide is recommended as it covers the basics of navigating SIM and how to perform student searches. This quick guide is located on the IMPACT Website, under SIM Documents and Publications (http://impact.cps.k12.il.us/downloads/QuickGuide_SIMupgrade.pdf)

In addition to the Introduction to SIM Quick Guide, on-line Help documentation is available in SIM. On the *Header*, next to your name, click *Help*, as seen in the screen capture below.

* Tardy	Tardy	

*** Teachers have access to these three codes only (Abs Unex FD, Present, Tardy).**

Maintain Attendance by Homeroom

The ES Attendance Coordinator has access to student attendance information for all homerooms in the school. The ES Attendance Coordinator must enter student attendance information in SIM for Substitute Teachers who submit daily attendance via a hard copy Homeroom Roster.

When Students are Absent or Tardy

The following steps describe how to record attendance information when students are absent or tardy:

1. On the horizontal *Menu bar*, under Admin, **click** the *Homerooms* link.

2. On the *Homerooms* page, **click** the *Attendance* icon [] for a specific homeroom.

Maintain Attendance by Student

An ES Attendance Coordinator can modify individual student attendance information for past, current and future dates. The following example walks through how to edit past attendance; however, the steps detailed are the same if editing present or future attendance.

To Edit Attendance

1. **Perform** a student search and **open** the student's record.
2. On the *Control Bar*, **click** the *Attendance* link. The *Student Attendance* page displays. Note the following:

SIM defaults to display student attendance 2 weeks back and next from the current day.

Use the *Date Range* dropdown arrow to select the desired day or period, as illustrated here.

The date range selected above displays each *Date*, *Day*, and *Daily* (code) here, under the *Attendance Details* section.

3. On the *Student Attendance* page, under the *Attendance Details* section, **edit** the following:

Click the **Daily (code)** dropdown arrow, and Select the appropriate code for the desired date.

In this example, a student's **Absent Unexcused** is being changed to **Absent Excused**.

Note the **Comments** icon changes to red visually.

See the section below for more information on entering an Attendance Change reason.

Entering an Attendance Change Reason

To allow for more accurate tracking of changes to **submitted** attendance, schools are required to enter a change reason for any adjustments made to **submitted** attendance in IMPACT SIM. This change is not applicable to teachers who should continue to enter, submit, edit attendance (T, AUFD, AUX) and same-day resubmit attendance in IMPACT Gradebook. Attendance Coordinator and Principal roles are required to enter the change reason.

SIM attendance functionality has been enhanced to prompt the user to select a change reason any place in SIM where submitted attendance can be edited (for example, by homeroom/class, by student, and mass attendance). In accordance with state and CPS policy/procedure, schools can adjust **submitted** attendance for the following eight reasons:

1. Concern for Student Health and Safety
2. Death in the Immediate Family
3. Family Emergency
4. Home/Hospital Program
5. Input Error
6. Other/Subject to Principal Discretion – **important:** *If this reason is selected, SIM will not allow the user to save the change(s), unless additional/specific details are added to the Comments field.*
7. Religious Observance
8. Student Illness

The following steps detail how to enter a change reason when adjusting **submitted** attendance from an elementary school student's *Attendance* page:

1. **Perform** a search to **locate** and **open** the student's record. Navigate to the *Attendance* page.
2. For the date in question, **click** the dropdown arrow under the *Daily* column and select the appropriate code. Note that the *Comments* icon changes to **red** to visually indicate that **submitted** attendance has been modified and a change reason is required.

<input type="checkbox"/>	Date	Day	Daily	
<input type="checkbox"/>	Sep 02	Tue	Present	
<input type="checkbox"/>	Sep 03	Wed	Abs Exc FD	

3. Click the **red** *Comments* icon to open the *Comments* dialog box.

Select a change reason and click **OK** to save your reason and return to the student's *Attendance* page.

Important: If "Other/Subject to Principal Discretion" is selected, you must enter additional/specific details in the *Daily comment* field, or SIM will not save your changes.

5. **Click** Save in the lower right hand corner to save all edits to **submitted** attendance.

Note: If a user modifies **submitted** attendance and attempts to save the change without entering a change reason, the following error message will display:

Submitted attendance has been modified, you must select a change reason.

OK

If a user selects the change reason "Other/Subject to Principal Discretion" and does not enter additional/specific details in the *Comments* field, the following error message will display when the user attempts to save the change:

Provider-specific exception: The change reason "Other/Subject to Principal Discretion" has been selected. You must enter additional/specific details in the Comments field. Please re-enter your submitted attendance change.

To Record an Early Dismissal

When a parent or guardian requests to sign out his child for early dismissal, the ES Attendance Coordinator completes the following tasks:

- Record the early dismissal in the attendance log book.
- Update the student's attendance record in SIM to reflect the change.

 **Note:** Based on the time of the dismissal, a determination is made by the School Office to change the attendance code from *Present* to appropriate code (i.e., Absent Excused PM, Absent Unexcused PM, etc.).

There are two ways to record an early dismissal in SIM:

1. On the student's *Attendance* page, as described on page 9; or
2. On the SIM *Attendance* page, as detailed below.

The following steps describe how to record an early dismissal, utilizing the SIM *Attendance* page:

1. On the horizontal *Menu bar*, under *School*, **click** the *Attendance* link.
2. On the *Attendance* page, **enter** student's last and first names and **click** the *Search* button. The student's name will display in the *Search Results* section.

IMPORTANT:

The SIM *Attendance* page pertains to the current date only.

It cannot be used to record attendance for past or future dates.

3. Under the *Search Results* section, **complete** the following information:

Click the *Daily (code)* dropdown list and **Select** the appropriate code.

Click the *Comment* icon and Enter applicable comments, if needed.

Click the **Save** button.

4. **Repeat** steps 2 and 3 for additional students.

Note: The steps described here can also be used in conjunction with the school's Tardy Log (if the ES Attendance Coordinator is responsible for entering students' tardies into SIM).

Maintain Attendance for Multiple Students/Days

ES Attendance Coordinators can assign attendance codes for several days or for a specific date for a list of students (for example, students who are going on a field trip). Attendance can also be assigned to an individual student who may be out for several days (for example, a student who is going on a family vacation for three days).

The following steps detail how to assign attendance for multiple students/days. In the example below, all 3rd graders will be going on a field trip.

1. On the *Home Page*, **click** the Third Grade [3] link to display all 3rd graders.
2. Select all students, and from the *Actions* menu, **select** the *Mass Attendance* option.

The *Mass Attendance* page displays.

Enter/Select all relevant information.

The screenshot shows the 'Mass Attendance' form. It has the following fields:

- 'Enter attendance for: 205 students'
- '*Start: 10/24/2014' and 'To: 10/24/2014' (with calendar icons)
- '*Assign: Homeroom Attendance' (dropdown menu)
- '*To: Full Day' (dropdown menu)
- 'Periods: Available:' and '*Selected:' (two empty boxes with arrows between them)
- '*Attendance code: Schl Func(SF)' (dropdown menu)
- 'Comment: Enter applicable comments.' (text area)
- '*Change reason: Other/Subject to Principal Discretion' (dropdown menu)
- '*Required' label at the bottom left.
- 'OK' and 'Cancel' buttons at the bottom right.

Click OK to save your information.

Note: The steps described above can also be used to assign multiple days to one student. For example, a 3rd grader is out sick for three (3) days.

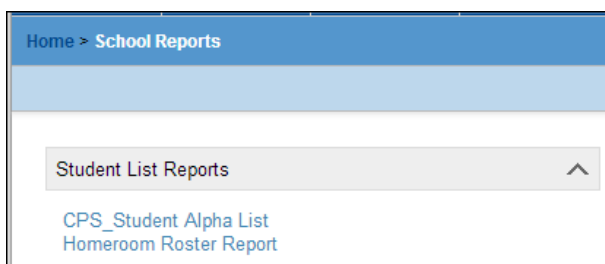

Print Homeroom Roster (to take manual attendance)

If an ES Teacher does not have access to Gradebook to submit attendance, the *Homeroom Roster Report* can be used to record homeroom attendance and then provided to the ES Attendance Coordinator for entry into SIM. Substitute Teachers should also use the *Homeroom Roster Report* to take manual attendance. This roster may also be used in such cases as emergencies and field trips.

1. On the horizontal *Menu bar* under *Admin*, **Click** the *Reports* link.

2. On the *School Reports* page, under the *Student List Reports* section, **Click** the *Homeroom Roster Report* link.

Generate Reports

The following is a list of Attendance reports located on the *School Reports* page in SIM. Clicking on the name of each report provides a description of the selected report.

The following steps detail how to select and run the *CPS Student Daily Attendance with Summary* report:

1. On the horizontal *Menu bar*, under *Admin*, **Click** the *Reports* link.
2. On the *School Reports* page, under *Attendance*, **Select** the *CPS Student Daily Attendance with Summary* report hyperlink.

3. On the *Reports Options* page, complete the needed information:

Under *Preferences*, enter applicable *Start and End Dates*

Click the *Run* button.

Notes: Options on the *Report Options* page may vary depending on the report selected. Some reports offer three (3) to four (4) sections, as detailed below. For those reports that do, the User can select only those parameters that are needed, as follows:

1. **The Preferences section** – allows the users to select options, specific to that particular report (such as, *Include inactive students*; *Sort Order*; Reporting Date options: *Today*, *To* and *From* dates; etc.)
2. **The Filters section** – allows the users to select the filters that best delineate what information they need or want in the report (such as, filter to select a specific Homeroom or for an individual student only).
3. **The Scheduling Options section** – allows the user to determine when or how often the report should run (such as, *Run Now*, *One date and time*, or *Recurring Date and Time*. The default is *Run Now*).
4. **The Output section** – allows the user to determine the format for the report, such as Adobe Acrobat, Excel, Word, etc. The default is *Adobe Acrobat*.
